QUESTIONS / DISCUSSION

Army G-3/5/7

- “We seek a **highly ready and capable Army**, able to dominate any opponent across the full spectrum of operations . . .
- We chose **further reductions in troop strength** and force structure in every military service – active and reserve – in order to sustain our readiness and technological superiority, and to protect critical capabilities like Special Operations Forces and cyber resources.
- We chose to **terminate or delay some modernization** programs to protect higher priorities in procurement, research, and development.
- And we chose to slow **the growth of military compensation** costs in ways that will preserve the quality of the all-volunteer force, but also free up critical funds needed for sustaining training, readiness, and modernization.”
