Army Reserve Mission

The Army Reserve provides trained, equipped, and ready Soldiers and cohesive units to meet global requirements across the full spectrum of operations.

Army Reserve Vision

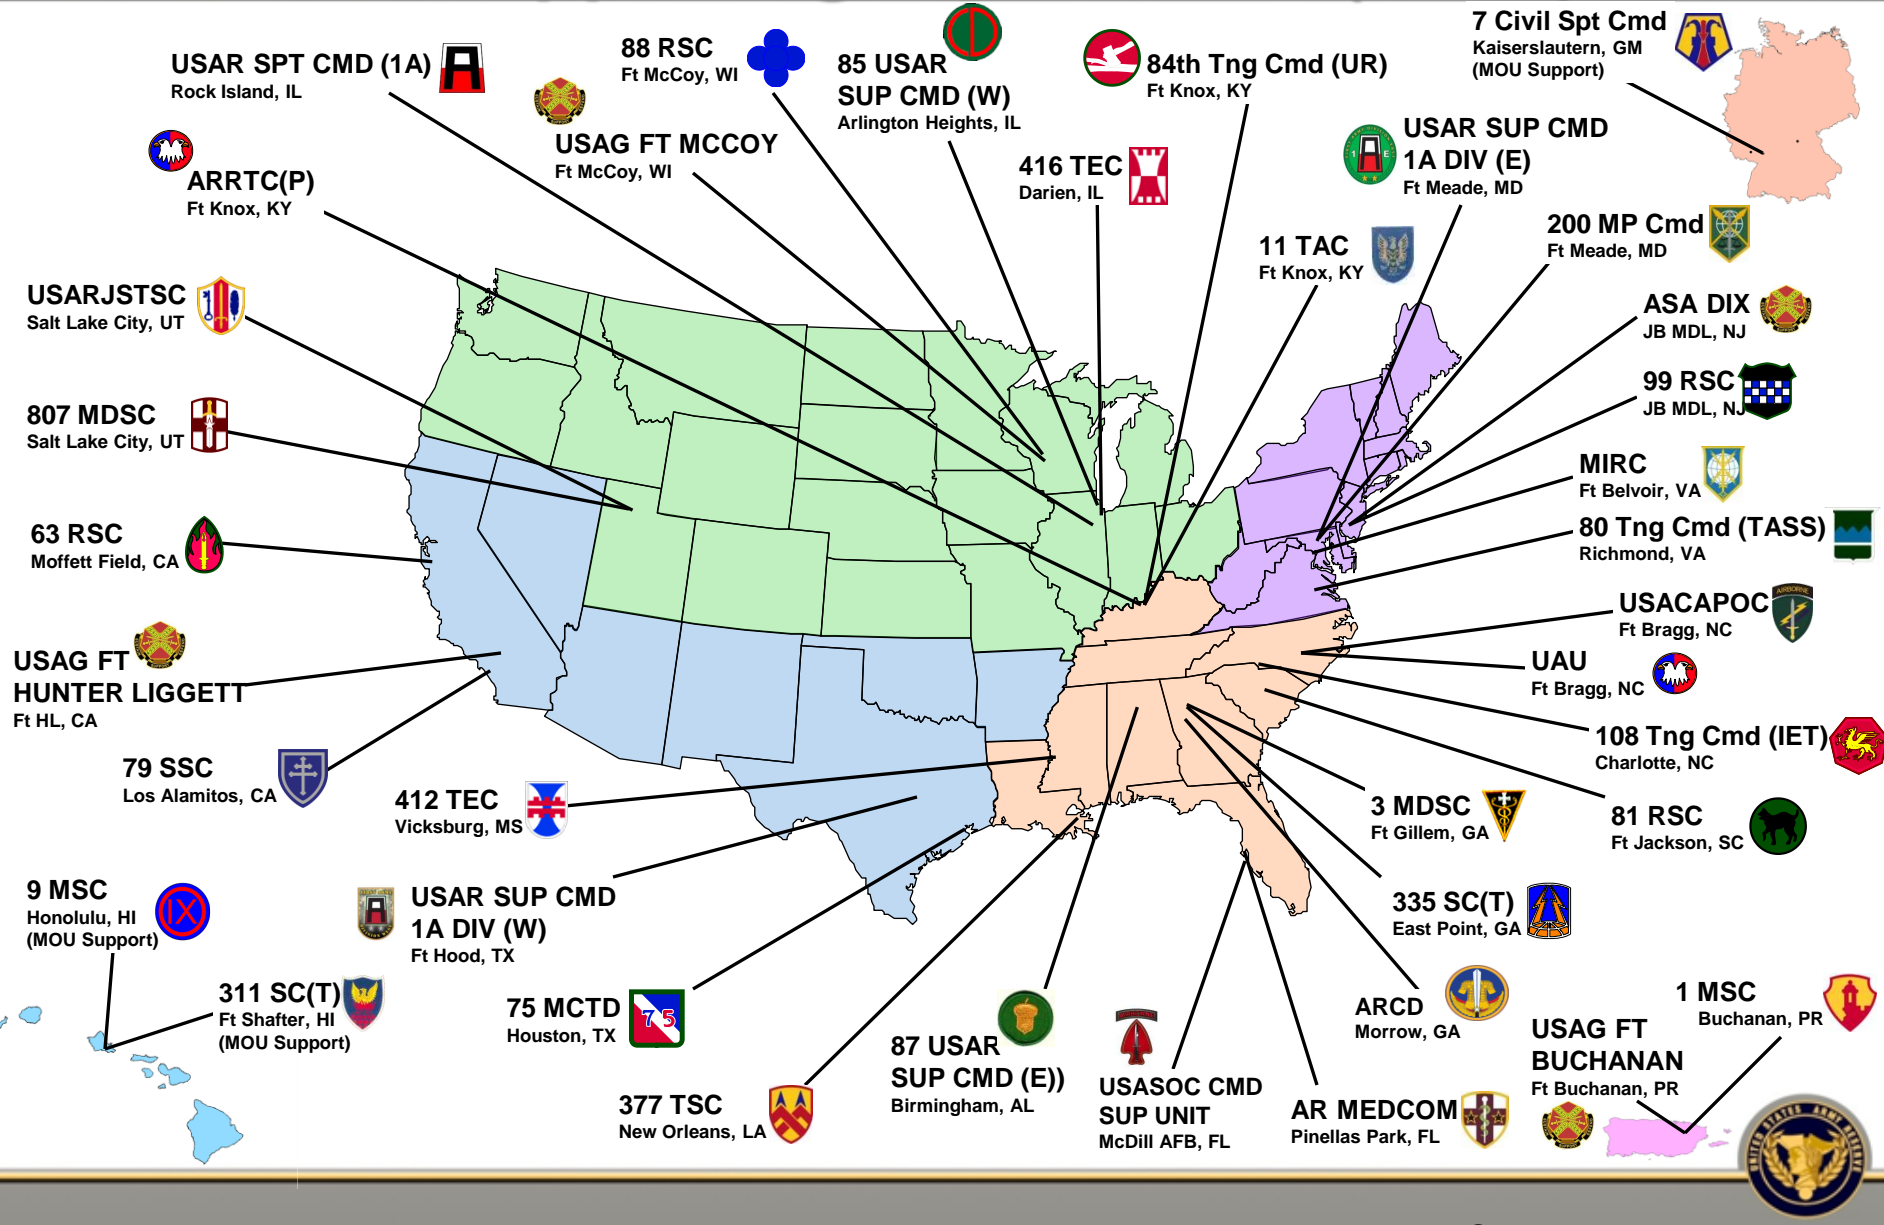

As an enduring operational force, the Army Reserve is the premier force provider of America's Citizen-Soldiers for planned and emerging missions **at home and abroad**. Enhanced by **civilian skills** that serve as a force multiplier, we deliver **vital military capabilities essential** to the Total Force.

Evolution of the Army Reserve. Today's Army Reserve is no longer a strategic, supplemental force. Since 9/11, it has been a crucial element of the Army's overall deployable strength and war fighting team.

Providing Essential Operational Capabilities. The Army Reserve provides integral support units and specific functions as an element of the total operational force.
